

## Globe Introduces New Electronic Digital Timer On 60 Quart Pizza and 80 Quart Mixers

**DAYTON, OH – December 19, 2011** – Globe Food Equipment introduced a new electronic digital timer on the SP62P 60-Quart Pizza and SP80PL 80-Quart Mixer for improved accuracy and ease of cleaning. The new digital timed control allows the operator to select a precise mixing time which can be saved for the next mixing batch. The non-timed digital manual control allows the operator to maintain the speed and time for mixing with a one-touch start and stop operation.

Both the SP62P and the SP80PL have many outstanding features including:

- Rigid cast iron body
- Powerful 3 HP custom built motor
- High-torque direct gear drive
- Heat-treated hardened steel alloy gears and shafts
- Power bowl lift
- Industry standard #12 attachment hub
- Automatic safety shut off provides superior motor & transmission protection
- Safety interlocked bowl guard and bowl lift
- Stainless steel bowl guard with built in ingredient chute
- Comes complete with a heavy duty stainless steel bowl, spiral dough hook and bowl truck (SP80PL also includes flat beater and wire whip)
- ETL and NSF listed
- Two year parts and one year labor warranty

Globe offers eleven high quality, professional style mixers with capacities ranging from five quarts to 80 quarts. For more information concerning the SP62P or SP80PL, or any of Globe's premier food preparation equipment, please contact Globe Food Equipment at 937.299.5493, or visit [www.globeslicers.com](http://www.globeslicers.com).
