Advantages of a Piggy-Back

The State of Florida allows and encourages the practice of piggybacking the bid awards of other local, county, and state level organizations for some very sound reasons:

- **Fact:**
The function of a formal purchasing procedure is not just to get the lowest price, but also to get the best value while complying with all local, state, and federal regulations.
- **Fact:**
Streamlining the purchasing process allows a beleaguered School District to more efficiently utilize the invaluable productive time of their team leaders and associates.
- **Fact:**
In many instances piggybacking can be much more efficient than starting a purchase from scratch with a request for bid or proposal. The time it takes to make a purchase is often cut from months to days to hours.

School Board of Desoto County

530 LaSolona Avenue
Arcadia, Florida 34266-4911
